Odysseyware® is a perfect fit for adult education programs offered through K-12 institutions, community colleges, community-based organizations, and juvenile and adult corrections facilities. With so many course options to choose from, these programs can offer:

1. Remedial/Developmental programs
2. Adult Basic Education
3. Adult Secondary Education
4. Career and Technical Education (CTE)
5. High School Equivalency (HSE) Test Prep
6. Adult High School
7. English Language Acquisition

Odysseyware content is aligned to the Office of Vocational and Adult Education (OVAE) College and Career Readiness (CCR) Standards in Math and English Language Arts.

With over 300 courses across all grade levels, including skills remediation, Odysseyware offers adult education providers the tools they need to:

- Support Educational Functional Level (EFL) completion and advancement rates
- Differentiate instruction
- Educate diverse adult learners across multiple settings
- Provide Social and Emotional Learning through BASE Education

**INSTRUCTIONAL DESIGN**

Odysseyware® learning paths provide targeted and efficient instruction based on assessed content mastery.

**Prescriptive Learning Paths**

Educators can address diverse student populations with varying academic abilities, including those missing primary grade foundational skills. A pre-test threshold score before each instructional unit determines whether the entire unit will be skipped or added to a student’s learning path (CRx mode). In *Flex CRx mode*, custom learning paths are automatically assigned with specific unit lessons that address skill gaps identified in the pre-test.

**Supports Adult Learning**

Odysseyware® is self-paced, enabling students to take control of their learning, at home or in a blended learning setting, and 24/7 on-demand access on any device. Project-based assessments enable students to solve real-world problems and immediately apply new knowledge.

**INSTRUCTIONAL SUPPORTS**

Support tools and scaffolds are embedded in every lesson, including literacy, fluency, and audio scaffolds. Immediate feedback throughout lessons and assessments guide learning. Language acquisition supports include 23 different language translations with audio supports for 19 languages, short and engaging direct instruction videos, dynamic learning activities, vocabulary and reference tools.

**Additional Language Acquisition Supports:**

- Text-to-speech features and direct instruction videos
- Translation tools and embedded visuals
- Vocabulary development and read-alouds
- A writer tool with targeted, real-time feedback
Odysseyware® HSE Test Prep courses provide students with the instruction, practice, and assessment they need to prepare them for success on GED®, HiSET®, and TASC Test Assessing Secondary Completion™ exams.

Courses included embedded review and practice opportunities, as well as study tips and concept review videos. Each course also includes practice tests that reflect the design and question types of the exam students are preparing for.

"Adults can't always come into school. For adults with limited time, Odysseyware provides a flexible learning mode to learn online. We have had great success over 8 years with the Odysseyware targeted test prep for HiSET and GED."

Jeff Ochs, Principal,
Oroville Adult Education Career and Technical Center

CTE AND CAREER CLUSTERS

CTE is a key component in the implementation of integrated education and training, supporting the requirements of The Workforce Innovation and Opportunity Act (WIOA) Title II.

- 80+ CTE courses offer real-world application across diverse industries
- Aligned to all 16 national Career Clusters set forth by Advance CTE
- 22 courses awarded ISTE Seal of Alignment
- Project-based assessments extend knowledge and understanding for adult learners to develop the skills needed to pursue credentialing, certifications, or employment.
My students feel empowered and confident that they can achieve their personal goals. The program’s 85% successful graduation equivalency rate—increasing 15% since starting with Odysseyware—speaks for itself.

Emily Brandenburg,
ABE/ASE/AHS Coordinator
Cape Fear Community College

REAL-TIME REPORTS

Facilitate program reporting and NRS* compliance requirements needed to secure funding.

Odysseyware® offers teachers 15 real-time reports and student and teacher dashboards that provide easy access to the data needed to measure educational gains, course completion, time on task, and time logged.

Identify EFL levels by analyzing this data to see areas that need improvement and plan appropriate interventions to improve adult learner performance.

* NRS (National Reporting System for Adult Education)

REAL RESULTS

During a 9-week session, students using Odysseyware® for HSE test prep at Cape Fear Community College moved up to 4 grade levels on the TABE tests for reading, language, and math. One student, for example, scored at a 8.0 grade equivalency on his pre-test for math; 9 weeks later he outscored the Level D (Difficult) post-test and had to retest on the Level A (Advanced) test, scoring a 12.9+ grade equivalency.
